Picture Frame Hook
Small, Large

Wires

Regular Equipment

1. Select the correct upper part that matches the type of rail to install.

Wires

Regular Equipment

2. Avoid risk of electric shock by **turning the rail switch off**. Do not use it for the center ceiling light rail.

3. Use a wire cutter to cut the ends of the wires if the wires are too loose to fit inside the part.
4. Turn the thumb screw slightly to loosen it and press down to fit the wire inside.

Thumb Screw

Wires

Regular Equipment

5. All parts must be returned in their original organized condition at the time of rental.

* Upper, Lower Parts:

50 pcs per 1 bag.

* Wires:

In twisted pairs, 10 pcs per 1 bag.

Wires

Regular Equipment

Cylindrical Light

Cannot separate cover from light bulb.

Cannot select light bulb color.

Lights

Regular Equipment

1. Avoid risk of electric shock by turning the rail switch off before installation.
2. Align the light bulb electric contacts so that they are parallel to the rail, fit it inside the rail, and turn it 90 degrees to fasten it to the rail.
